

# The Datco Filter Roll

The Filter Roll comes standard with a double hold down roll which conveniently allows our customers to run thin filter frames over the the roll with 100% coverage. This machine is everything you want without the need for an additional mat or extra accessories!

The Filter Roll serves the need of a majority of filter manufacturers and is a filter industry best seller.

- Available in either 6" or 12" lengths
- The 6" roll is 750 watts, and holds 2 lbs of adhesive.
- The 12" roll is 1500 watts and holds 4 lbs of adhesive.
- Both 6" and 12" are offered in either 120V or 220V
- Comes standard with a Variable Frequency Drive
